EcoTouch® Insulation

FOR FLEXIBLE DUCT

Introducing EcoTouch® Insulation for Flexible Duct

The natural choice. Owens Corning™ EcoTouch® Insulation makes it easy to meet business requirements for energy efficiency and green building certifications. If you are looking for insulation with high recycled content;* outstanding thermal and acoustical performance; and a natural,* biobased material* – Owens Corning has the solution.

Our EcoTouch® Insulation has even been named the greenest insulation by Green Builder** magazine and is the only fiberglass insulation product listed in the USDA BioPreferred® Catalog because of its biobased binder. And with BioPreferred products being required by the U.S. government and an option in the recently updated International Green Construction Codes (IgCC), the trend for BioPreferred products is clear. Owens Corning is your source.

Don't lose jobs of tomorrow by not being ready today. EcoTouch® Insulation – now available for flexible duct.

- **EASY TO HANDLE**
- **MADE IN THE U.S.A.**
- **MADE WITH 99% NATURAL MATERIALS**
Formaldehyde-free† with biobased binder (not acrylic)
- **57% RECYCLED CONTENT**
- **GREENGUARD Children & Schools CertifiedSM**

* Unfaced insulation made with a minimum of 99% by weight natural materials consisting of minerals and plant-based compounds.

** Green Builder® 2011 Readers' Choice Brand Study shared in Feb. 2012 Green Builder Magazine.

† Applies to the insulation component only.

Scientific Certification Systems (SCS) provides independent verification of recycled content in building materials and verifies recycled content claims made by manufacturers. For more information, visit www.scs-certified.com. The GREENGUARD Indoor Air Quality Certified Mark is a registered certification mark used under license through GREENGUARD Environmental Institute.
